Our fascinating Tuscan adventure began back in 1969. Since then we have gathered lots of experience and know-how and have achieved numerous successes. However, in order to complete our selection of fine Tuscan wines we needed to add still one more important element, the Brunello di Montalcino. It is rather difficult, though, to purchase vineyards in this production area. Therefore, in 2010 we began a close cooperation with “Villa Poggio Salvi”, a traditional winery that also works together with our wine consultant and enologist Vittorio Fiore. This close, productive cooperation gave birth to our Brunello di Montalcino. Brunello di Montalcino Triacca is delicate, complex, elegant and above all long-lasting.
